

Padel Wellness Experience

As part of our wellness retreat experience, we bring the group together through fun, movement, and connection on the padel court. Whether you're playing for the first time or already love the game, our padel sessions create the perfect balance of energy, laughter, friendly competition, and community. Surrounded by the tropical atmosphere of Playa Venao, padel becomes more than just a sport — it's a social experience that keeps the body active, the mind engaged, and the group connected throughout the retreat journey.
