

Surf Experience in Playa Venao

Whether it's your very first wave or you're already experienced in the ocean, our surf sessions are designed to meet you exactly where you are. Playa Venao offers one of the most incredible surf bays in Panama, with consistent waves for every level — from complete beginners to advanced surfers. Our instructors guide you step by step through the foundations of surfing, helping you build confidence, independence, and a real connection with the ocean. In just one retreat, many of our guests go from never touching a surfboard to feeling comfortable catching waves on their own. Every surf session is professionally filmed, allowing us to provide personalized video analysis that helps each participant improve faster and understand their technique on a deeper level. This combination of in-water coaching and detailed feedback creates a powerful learning experience that elevates every surfer individually. More than just a sport, surfing becomes a personal journey of growth, freedom, presence, and fun.
